**W**e bring a fresh approach to design

incorporating modern technology into everyday objects. Sometimes life can be complicated and technology too intrusive. Therefore by keeping our product lines simple yet engaging and keeping our products up to date with technology, as well as being aesthetically pleasing has kept us driven, and the reason why our products have been so popular and successful around the world.

We thrive on seeking and creating the out of the ordinary, which enforces the foundation of our ethos, escape the boring: design for a better and smarter life.

Paul Sun  
Co-Founder & Head of Sales  
Gingko Electronics (UK) Ltd

# Analogue clickclock™

Inspired from the nature of simplicity and the look of a traditional analogue clock face, the NEW Analogue Click Clock designed by Gingko has a ultra-stylish and contemporary look. The cutting edge and aesthetical design makes it stand out from any traditional or digital analogue clock crowd and it certainly catches people's attention no matter where you put it, in your sitting room, office, kitchen or lounge .

The Analogue Click Clock can be placed on the table/shelf, or it can also be wall mounted. It meets people's desire for adding an unusual and aesthetically pleasing objet d'art in their living or working space, as well as telling the time in a very inspiring way.

Plus, the second dot moves every second on the circle face and looks like it's magically dancing on this beautiful piece of design, which makes it even more inspiring and appealing.

The Analogue Click Clock still features an alarm and sound activated functions, the same as our other click clocks. It can also be set to display permanently.

# Analogue clickclock™

- time display in a traditional analogue face combining with the modern and latest LED display technology
- Analogue display face automatically switches off when it's quiet and light up as a response to clicked fingers or clapped hands, or it can be set display permanently
- power supply: DC 5V/0.5-1A plug adapter (included) or in built back-up rechargeable battery

Aluminium Analogue Click Clock

Black Analogue Click Clock

We're fascinated by time and we have a passion for clocks. We think time can be smart, stylish and functional as well.

The click clock range can tell you the time, date and temperature alternately on a wood/aluminium/marble effect block at the click of your fingers. It automatically switches itself off when the room is quiet, lighting up again when the alarm goes off or as a response to clicked fingers, clapped hands or even a gentle tap. The numbers seem to float on this lovely block, but that's just half magic of these clocks.

The Cube Click Clocks are our classic and one of the best-selling designs. They're available in different material finishes to fit into different interiors.

Small but smart, simple but clever.

# cube

- display time, date and temperature alternately
- LED display automatically switches off when it's quiet and lights up as a response to a clap, touch, or clicked fingers
- 12/24 hours clock and temperature display can be in Celsius or Fahrenheit

Cube Walnut Click Clock / Green LED

Housed in a bright colourful and sleek rubberised cube and designed with the ingenious touch sensitive snooze and gravity controlled alarm, the new colourful Gravity Cube Click Clock collection can make your every minute in bed matter. To snooze simply touch the soft top of this cube and to turn off the alarm, just turn it over onto any side. It's a great way to stop you fumbling in the dark looking for the snooze or off switch and make your every morning start with fun.

The Gravity Cube Click Clock still incorporates the same sound activated LED display technology as the classical wood cube click clock ranges and it displays the time, date and temperature alternately at the click of your fingers or clap of your hands.

brick

We're all slaves to time, but now it's on your terms with these stylish Brick Click Clocks. Just click your fingers or gently tap your bedside table and the time will appear and looks like the time is magically floating on these lovely bricks. No longer does your room have to be illuminated by a constant blinking digital glow, nor do you have to fumble to find your smartphone in the darkness.

The Brick Click Clock can display the time, date and temperature alternatively or you can also set it on permanent time display. Best of all, due to its portable feature with a integrated rechargeable lithium battery, it can be placed wherever you like with no need to worry about too many wires around your room any more.

## wall click clock™

The Wall Click Clock offers an unusual contrast to the conventional looking wall clock.

Using the floating natural wood effect surface, it can light up with the time by clapping or clicking your fingers and magically disappear when quiet. The contemporary design bridges the gap between modern and traditional without being flashy or tacky and will be the topic of conversation at your next home or office party.

- display time, date and temperature alternately
- LED display automatically switches off when it's quiet and lights up as a response to a clap, touch, or clicked fingers
- 12/24 hours clock and available in Celsius or Fahrenheit format display
- European or American date format display setting
- LED display automatically dims half between 9pm and 7am
- can be set on permanent display so display stays on all the time
- powered by integrated rechargeable lithium battery to have a portable display (plug charging adapter included)

- battery life after fully charged : 5-7 days in permanent display and 2-3 months in sound activated display.
- charging time: 3-4 hours (can have the clock plugged in all the time with the charging plug adapter)
- in-built internal memory battery to keep all your custom settings
- 3 alarms setting and 5 or 7 days alarm setting with snooze function
- product material: MDF wood with walnut wood effect/aluminium effect veneer Finish
- product size: 250mm diameter in 45mm thick
- product weight: 1200 g

# radio clickclock™

The Radio Click Clock - strong, but certainly not silent.. The clean and uncomplicated design will certainly still grab anyone's attention and stands out from the rest of the radio crowd. The user friendly, on screen LED clock, FM frequency display or alarm time's floating appearance, contrasts against the natural and realistic material designs, that gives it a modern and mysterious edge. Wake up to the delightful stereo sounding radio from the beautifully lined-up 49 speaker dots and snooze to your hearts content with a simple press of the aluminium finished tuning button on top.

The Radio Click Clock also still includes all the fantastic features of our other Click Clock ranges- a clap of your hands or click of your fingers and the display magically lights up for a few seconds with the time, date and temperature and disappear while it's quiet when the radio is not in use.

- FM Radio with on screen frequency display
- automatic channel searching or manual tuning
- display time, date and temperature alternately or only on permanent time display
- on screen alarm time display
- radio or buzzer alarm option and 5 or 7 days alarm setting
- sound activated display or permanently stays on
- 12/24H clock and Celsius or Fahrenheit temperature display
- European or American date display
- LED display automatically dims by half between 9pm and 7am
- power supply: built-in 2000mAh rechargeable battery or wall plug adapter
- battery life: 7-8 hours when radio is constantly in use; 10-14 days when clock is on permanent display setting and 3-4 months in sound activated display setting.
- in-built internal memory battery to keep all your custom settings
- product material: wood with wood/aluminium/leather effect veneer finish
- product size: L: 17.9 x W: 5.4 x H: 10.5 cm
- product weight: 850 g
