# ABOUT MAGISSO

## JOIN THE FINNISH DESIGN MOVEMENT

Life is filled with small everyday problems: how to keep your drink cool in the sun, why making loose tea is always such a mess – and where the heck is your dish cloth?

Sometimes it only takes one tiny thing gone wrong to derail your whole day.

We want to keep you on track and make it easier for you.

Best solutions grow from personal frustration.

When we established Magisso in 2008 in Helsinki, Finland we had a burning passion to make meaningful design and international business.

And we knew nothing about design and international business. Really.

Over 20 design awards later we still thrive from that same passion.

For us every obstacle is an opportunity. We are driven by desire to solve problems and create beautiful designs.

Whenever you discover a problem already solved it'll make you go:

“Wow! Why didn't I think of that?” and share it with your friends.

Sharing positive experiences creates a circle that inspires us all.

We are part of your everyday journey for better living.

# HAPPY PET PROJECT

## NEW! FOR HEALTHY HAPPY PETS

The new MAGISSO® Happy Pet Project Bowls keep water and food fresh for hours and limits bacterial contamination.

Soak the Pet Bowl in water for 60 seconds to activate the natural cooling effect that will last several hours.

**Material: Food safe ceramics. LFGB and FDA tested. Dishwasher safe.**

Happy Pet Project Slow Dining Bowls make the pet eat around the shape inside the bowl slowing the process.

This prevents over-eating and indigestion issues. The chewing phase is also prolonged which increases saliva production which is good for dental hygiene.

# TEACUP

## CONTROL THE TASTE

Place your favorite loose tea in the filter of the MAGISSO® Teacup, pour hot water until leaves are covered – let the brewing begin.

When the tea is ready to your liking, tilt the angled base and the brewing will stop.

No need to remove the tea leaves – just drink and enjoy the warmth and the natural fragrance of the tea leaves as they enhance the experience.

For a second cup of tea just add more hot water and tilt to steep. No mess. You are in control.

**Vol: 2.5 dl**

**Material: Food safe glass reinforced plastic.**

**Dishwasher safe.**
