

HUYGENS

SILENT CLOCKS

Inspired by our great-great-ancestor
Huygens to always improve something
as simple yet complicated as a clock,
we developed the complete silent
Huygens clocks.

Logo

Our logo reflects Huygens' pendulum. His invention contributed majorly to increasing a clock's accuracy. The pendulum reduced the deviation from 15 minutes per day to only a few seconds per day. The curve in the symbol represents the swing of the pendulum and the right-angle represents the 15 minutes improvement on a clock.

HUYGENS

SILENT CLOCKS

All Huygens clocks are

Tested to meet our high quality standards.

Equipped with a silent movement.

Designed in the Netherlands.

Made from recyclable quality materials.

A registered design.
