About

"At DOIY, we design absolutely everything from initial impulse to final product. Even a fleeting idea can become a really nice object. The creation of each piece is an amazing adventure."

Founded in 2008 in Barcelona,
DOIY is a design-driven global brand
that crafts unique homewares that make a
statement and tell a story.

We design objects for the home and kitchen that are unconventional, unique, creative, thoughtful and emotional. Every piece has a story. Whether they surprise, cheer up, send good vibes or make you laugh... they always provoke a pleasurable emotion.

Making a gift is something special; It's an intimate moment between people, where they express the best of their relationship and share love. It's a real honor for us to be part of this moment and make it even more beautiful and emotional thanks to our creations.

We offer a fresh approach to design, informed by youth culture, nostalgia and fashion. We love to distort reality and give a different look to the things around us. We run away from the standards and the basics. We break the rules and look for beauty in the unexpected.

Woodland

Collection

Step into the enchanting world of Woodland, a homeware collection that brings the magic of nature right to your home. This collection captures the whimsical feels of the forest in every detail, blending together simple elegance with the charm of the great outdoors, offering a touch of serenity to

your living spaces. Immerse yourself in the soothing ambiance of this collection, and transform your home into an enchanting haven, where the beauty of nature gracefully intertwines with the comfort of everyday living.

Love Collection

Is LOVE an art? Then it requires knowledge and effort. Or is love a pleasant sensation, which to experience is a matter of chance, something one "falls into" if one is lucky? [...] Not that people think that love is not important. They are starved for it; they watch endless numbers of films about happy and unhappy love stories, they listen to hundreds of trashy songs about love—yet hardly anyone thinks that there is anything that needs to be learned about love. [...]

Could it be that only those things are considered worthy of being learned with which one can earn money or prestige, and that love, which "only profits the soul, but is profitless in the modern sense, is a luxury we have no right to spend much energy on? - Erich Fromm, *The Art of Loving*.

Introducing the Love homeware collection, where every piece is designed with heartfelt elegance in mind. Embrace the timeless symbol of love with our enchanting heart-shaped objects that effortlessly infuse warmth and romance into your living spaces.

it's grown.**

yourself**
