TAKE AWAY
MEALS

FROM A SOUVENIR TO A STORY

The story of Qwetch began when **Stéphane Miquel went on a trip to Danian, China**, to meet with a humanitarian association called Couleurs de Chine. Over there, **everyone drank loose leave tea, anytime and everywhere**: among the rice fields, at home, at work, whether alone or with family...

Inspired by this culture, he decided, upon his return to France to develop the concept of the « **nomad teapot** ». He **adapted the traditional container used by the Chinese to brew their tea to accommodate to the needs of the Western tea drinkers**. In 2010, the Qwetch adventure began!

Qwetch is a company with a mission, offering innovative **solutions for nutrition and hydration**, designed to have low environmental impact and to support those who wish to avoid single-use products.

CERTIFIED B CORP™

Since 2022, we have been B Corp™ certified and proud to be part of this community of inspiring stakeholders always striving to progress in caring for people and the planet. Being B Corp™ certified means belonging to a community that is mindful of its impact and committed to acting. By joining this movement, companies demonstrate that they aspire not to be the best in the world, but the best for the world.

PURPOSE-DRIVEN COMPANY: TAKING CARE OF PEOPLE AND THE PLANET

As a Purpose-driven company, Qwetch has set itself the following **objective**: **Inspiring healthy and sustainable hydration**. This mission is based on five pillars, each with a focus on environmental and social commitment: Manufacturing, Circularity, Climate, Solidarity, and Movement.

These five pillars uphold a **purpose** that has remained unchanged since the very beginning of Qwetch: **to take care of people and the planet**.

In this context, Qwetch fosters the **vision** of **thriving society where responsible consumption respects both natural resources and people**.

DOWNLOAD
OUR PURPOSE-DRIVEN
COMPANY REPORT

Vision

To live in a thriving society where responsible consumption respects both natural resources and people.

Mission

Inspiring healthy and sustainable hydration.

Core Values

Taking care of people and the planet.

OUR FIVE PILLARS OF COMMITMENTS

01. MANUFACTURING

Encouraging ongoing improvements in **manufacturing methods**, **promoting transparency** and exploring the possibility of locating some **production steps closer to end-users**.

02. CIRCULARITY

Strengthening the **eco-design approach** and developing a **circularity policy** aimed at prolonging product lifespan.

03. CLIMATE

Measuring our **carbon footprint** and establishing a **reduction strategy** in line with the Paris Agreement.

04. SOLIDARITY

Supporting projects to **restore damaged ecosystems** and encouraging the **transition to a zero-waste society**.

05. MOVEMENT

Promoting a **shift** towards reuse over single-use practices, **engaging our employees, suppliers, customers, and partners** in this movement.

On the way to *100%*
of our products
made from *recycled*
stainless steel.

RECYCLED STAINLESS STEEL AT QWETCH

A COMMITMENT TO MEANINGFUL ENVIRONMENTAL IMPACT

Product development is central to our approach, **which is why we've committed to making all our products** (excluding accessories) **from recycled stainless steel by 2026.**

Recycled stainless steel is a key step towards **enhanced eco-design**, as it results in a **lower environmental impact** compared to producing raw materials.

WHAT IMPACTS ON OUR PRODUCTION?

One goal: To have converted **100% of our products to recycled stainless steel by 1st January 2026**, excluding accessories.

An impressive figure: 58% fewer carbon emissions by avoiding the impact associated with extraction and transports of minerals, as well as the energy consumption required to produce virgin material (A figure based on Qwetch's Carbon Footprint).

Certification : The stainless steel used in our products is manufactured in compliance with the **Recycled Claim Standard 2.0** and contains **90% recycled materials.**

BOX OF 6 CUTLERY SETS

«The most eco-friendly product is the one you already own.»

Circularity is one of the pillars of our commitment. Guided by eco-design principles we strive to ensure every product lasts as long as possible. That's why, at Qwetch, we offer an extensive range of spare parts, whether it's replacing a bottle seal, getting a new lid, or swapping out the filter on your tea mug. Together, we can keep your products going strong.

A top-down photograph of various Qwetch product components laid out on a light-colored surface. The items include: a black plastic lid with a central button, a black rubber seal ring, a stainless steel mesh filter with a small orange label, a plain stainless steel filter, a colorful patterned fabric carrying case with a metal snap, a pink plastic lid, and several other smaller components like a black rubber tip and a black plastic base. The Qwetch logo is visible on several parts, including the filters and the carrying case.
